## HOSPITAL & PHARMACEUTICAL INSTITUTIONS

*Clinical-Grade Hygiene Where Zero Compromise is the Standard*

Stringent hygiene programmes for hospitals, clinics, care facilities, and pharmaceutical manufacturing environments — covering infection control surfaces, clinical laundry, sterile equipment cleaning, kitchen catering, and full facility welfare.

### Surface & Floor Disinfection

Eliminate pathogens from every clinical surface, floor, and hard contact point — from ward floors and sluice rooms to pharmaceutical clean rooms.

Product	Application & Best For
<b>Bio Lino Quartz</b>	Odourless, low-foam disinfectant cleaner — ideal for sensitive clinical and pharmaceutical environments where fragrance is unwanted. <b>Best for: Sensitive environments   Scent-free disinfection   Hand dips   Surface disinfection   Available in clear and pink</b>
<b>Bio San</b>	High-foam disinfectant cleaner that kills germs thoroughly and eliminates bad odours. <b>Best for: Washrooms   Sluice rooms   Public hygiene spaces   Available in pine, lavender, or preferred fragrance</b>
<b>Bio Lino Avino</b>	A powerful chlorine-based cleaner and disinfectant whose active chlorine chemistry delivers fast, broad-spectrum microbial control on contact. Formulated for food, beverage, and clinical processing environments, it cuts through fats, proteins, oils, and surface contamination while its chlorine-active formula simultaneously disinfects — eliminating bacteria, viruses, and pathogens in a single step. The chlorine base also neutralises bad odours, making it the complete one-step hygiene solution for facilities that demand uncompromising standards. <b>Best for: Food and beverage processing   Clinical environments   One-step chlorine-based degreasing and disinfection   Processing equipment and surfaces   Odour neutralisation</b>

Product	Application & Best For
<b>Supar 100</b>	Non-foam floor degreaser for clinical ward floors, corridor floors, and service areas. <b>Best for: Industrial and clinical floors   Traffic mark removal   Grease prevention   Non-foam formula</b>
<b>Florex-San</b>	Gentle floor cleaner and disinfectant for polished stone and cement floors. <b>Best for: Polished stone floors   Cement surfaces   Safe disinfection   Long-term floor care</b>
<b>Starkleen Stripper</b>	High-strength acidic cleaner for heavily stained floors with deep metal marks and reddish discolouration. <b>Best for: Heavily stained floors   Metal oxide marks   Deep stain removal   Acidic formula</b>
<b>Bio Lino Dexol</b>	Disinfectant and deodoriser — kills mould and fungal growth. Suitable for corridors, outdoor areas. <b>Best for: Corridors and outdoor public areas   Mould and fungal control   Disinfection with fresh pine scent</b>

## CIP & Equipment Sterilisation

Sterilise pharmaceutical processing equipment, clean-room surfaces, and packaging systems to the highest regulatory standards.

Product	Application & Best For
<b>Oxyplus Active</b>	High-performance peracetic acid sanitiser and steriliser for CIP sterilisation. <b>Best for: CIP sterilisation   Closed pharmaceutical systems   Strict hygiene environments   Residue-free surfaces</b>
<b>Oxyplus FG 100</b>	Powerful peracetic acid-based sanitiser for both open and closed CIP systems. <b>Best for: Open and closed CIP systems   Equipment disinfection   Surface sanitation   Sensitive production environments</b>
<b>Hydrogen Peroxide 35%</b>	Widely used in pharmaceutical manufacturing for disinfection and sterilisation. <b>Best for: Pharmaceutical equipment sterilisation   Packaging disinfection   Non-staining   35% strength</b>
<b>Hydrogen Peroxide 50%</b>	Higher-strength hydrogen peroxide for intensive pharmaceutical sterilisation. <b>Best for: High-intensity sterilisation   Packaging   Non-staining   50% strength</b>
<b>Oxyplus FP50</b>	Hygiene solution for entry-point footbaths at controlled or sensitive production and clinical areas. <b>Best for: Entry-point footbaths   Pharmaceutical and clinical facilities   Cross-contamination control</b>
<b>Ajexi Guard</b>	Food-safe disinfectant also used for surface and equipment sanitation in clinical preparation areas. <b>Best for: Water treatment   Surface sanitation   Food-safe and clinical applications</b>

## Laundry — Main Wash & Disinfection

Hospital-grade laundering for patient linen, theatre garments, scrubs, clinical staff uniforms.

Product	Application & Best For
<b>Britto Dose Plus</b>	Heavy-duty low-foam liquid detergent specifically for healthcare facilities. <b>Best for: Healthcare facilities   Food industry laundry   Heavy soiling   Main wash cycle   Automatic dosing</b>
<b>Britto Power Plus</b>	Heavy-duty powder detergent with oxygen bleach built in. <b>Best for: Heavy soiling   Machine wash only</b>
<b>Bio Lino TG</b>	Hospital-grade laundry disinfectant with built-in cleaning properties. Dual action — killing germs and cleaning fabric simultaneously. <b>Best for: Hospitals   Clinics   Healthcare laundries   Pre-wash soak and main wash   Coloured and white linen</b>
<b>Ajexi 6</b>	Concentrated chlorine bleach and disinfectant for hospital white linen. <b>Best for: Hospital white linen   Clinical surface disinfection   Pre-wash soak or dosing   Concentration: 6%</b>
<b>Pera Plus</b>	Dual-action oxygen bleach — removes stains and kills germs in a single dose. <b>Best for: Coloured and white linen   Combined bleaching and disinfection   Bleach stage   Automatic dosing</b>
<b>Pera Bleach</b>	High-performance industrial oxygen bleach for heavy-use commercial operations. <b>Best for: White and coloured linen   Commercial and institutional laundries   Machine wash only</b>

### Laundry — Boosters & Spotters

Targeted treatments for the specific staining challenges of clinical environments.

Product	Application & Best For
<b>Top Wash 800</b>	Low-foam liquid laundry booster for machine dosing. Targets ink marks, greasy staining, and odour-causing residues. <b>Best for: Ink stains   Greasy laundry   Towel and linen odour removal   Machine wash only   Automatic dosing</b>
<b>Top Wash 605</b>	Concentrated alkaline liquid booster for heavily soiled, greasy, and stained fabrics. <b>Best for: Heavily soiled fabrics   Greasy and stained clinical workwear   Machine wash only   Automatic dosing</b>
<b>Perkol Ink Go</b>	Targeted stain remover that eliminates ink, lipstick, and other oil-based stains that survive the main wash. <b>Best for: Ink, lipstick, oil-based stains   Spot treatment</b>
<b>Perkol Soot Go</b>	Removes soot, smoke residue, and heavy carbon staining from fabric. <b>Best for: Soot, smoke, carbon stains   Spot treatment</b>
<b>Perkol Rust Off</b>	Targeted stain remover applied after washing to lift rust marks from both white and coloured fabrics. <b>Best for: Rust stains   Post-wash spot treatment   White and coloured fabrics</b>
<b>Perkol Flush 1620</b>	Versatile heavy-duty stain remover that tackles a wide range of problem stains in one treatment — including yellowing, dullness, and stubborn red soil. <b>Best for: Yellowing   Dullness   Red soil   Wide-range staining   Soaking and boosted wash</b>

Product	Application & Best For
<b>Perkol Strip</b>	<p>Powerful brightening agent available in powder and liquid form. Removes detergent buildup from over-washed linen and restores fabrics to a bright, clean appearance.</p> <p><b>Best for: Dull or over-washed linen   Machine or hand wash   Available as powder and liquid</b></p>

## Kitchen & Catering

Maintain hospital kitchens and catering operations to food-safe standards.

Product	Application & Best For
<b>Micro Wash</b>	<p>Low-foam detergent formulated for automatic dishwashing machines in institutional and commercial kitchens.</p> <p><b>Best for: Institutional kitchens   Hotels   Catering   Safe on glass, plastic, and stainless steel   Dishwasher wash cycle</b></p>
<b>Micro Rinse</b>	<p>Fast-acting rinse aid dosed automatically at the final rinse stage.</p> <p><b>Best for: Institutional kitchens   Hotels   Catering   Use with Micro Wash   Dishwasher rinse cycle</b></p>
<b>Oven Master</b>	<p>Powerful thick-gel oven and kitchen degreaser that dissolves baked-on grease and carbon deposits from cookers, frying pans, and heavily soiled cooking surfaces. The gel formula clings to vertical and angled surfaces for maximum contact time and deep penetration.</p> <p><b>Best for: Cookers and ovens   Frying pans   Kitchen hoods   Gel formula for superior surface adhesion</b></p>
<b>Oven Spray</b>	<p>Powerful liquid spray oven and kitchen degreaser formulated specifically for hard-to-reach and inaccessible areas where a gel cannot penetrate. Delivers the same heavy-duty degreasing action as Oven Master — dissolving baked-on grease and carbon deposits deep inside enclosed ovens, extractor hoods, and enclosed cooking cavities without dismantling equipment.</p> <p><b>Best for: Hard-to-reach oven cavities   Extractor hoods   Enclosed cooking surfaces   Liquid spray format</b></p>
<b>Britto Dip</b>	<p>Stain-removing soaking powder designed to lift stubborn stains from cups, mugs, tea kettles, and coffee makers.</p> <p><b>Best for: Cups and mugs   Tea and coffee equipment   Beverage stain removal   Hotels and canteens</b></p>
<b>Bio Rinsola Extra</b>	<p>All-purpose cleaner that removes stubborn grease and grime from kitchen surfaces and equipment.</p> <p><b>Best for: Kitchen surfaces   Grease and oil removal   Hand and machine washing   Multi-purpose use</b></p>
<b>Stazed</b>	<p>High-foam powder detergent with built-in disinfection power for heavy-duty cleaning in food and beverage environments.</p> <p><b>Best for: Kitchen surfaces   Food processing environments   Combined cleaning and disinfection   Heavy soiling</b></p>
<b>Ajexi Guard</b>	<p>Food-safe disinfectant certified for water treatment. Safe for direct use on fruits and vegetables to eliminate surface bacteria.</p> <p><b>Best for: Food-safe applications   Domestic and industrial use   Water treatment   Produce sanitation</b></p>

## Hand and Body Hygiene

Protect clinical staff, support staff, and visitors with reliable, skin-safe hygiene products at every point of need.

Product	Application & Best For
<b>Handex Cream</b>	Gentle hand washing cream that kills germs while keeping skin soft and protected. Available in a variety of colours. <b>Best for: Factory washrooms   Daily hand hygiene   Skin protection   Available in a variety of colours</b>
<b>Handex Dry</b>	Alcohol-based hand sanitiser that eliminates germs on contact. Dries almost instantly — no water or towel needed. <b>Best for: On-the-go sanitisation   No-rinse hygiene   Alcohol-based</b>
<b>Handex Body Gel</b>	Mild yet effective pH-balanced body wash formulated for daily use in institutional shower and welfare facilities. Gently cleanses and conditions skin while providing reliable germ-killing protection — ideal for high-turnover environments where worker welfare and hygiene compliance go hand in hand. Available in a range of fragrances to suit facility preferences. <b>Best for: Worker welfare showers   Factory and site facilities   Daily personal hygiene   Skin-safe formula   Available in a range of fragrances</b>

### Washroom & Sluice Room Care

Maintain clinical washrooms and sluice areas to infection-control standards throughout every shift.

Product	Application & Best For
<b>Bio-Flush</b>	Non-drip limescale remover for bowls and ceramic surfaces in clinical washrooms. <b>Best for: Toilet bowls   Ceramic surfaces   Limescale removal</b>
<b>Bio Flush Terminator</b>	Iron and rust stain removal from hard-to-reach ceramic areas. <b>Best for: Iron and rust stains   Ceramic surfaces   Hard-to-reach areas</b>
<b>Starkleen</b>	Scale and mineral deposit remover for ceramics and stainless steel clinical fittings. <b>Best for: Ceramic surfaces   Stainless steel   Hard water scale</b>
<b>Bio San</b>	High-foam disinfectant — odour and germ control in washrooms and sluice areas. <b>Best for: Washrooms   Sluice rooms   Odour and germ control</b>

### Drainage

Prevent costly blockages and maintain hygienic, odour-free drainage in clinical and kitchen drains.

Product	Application & Best For
<b>Stazed 100</b>	Fast-acting drain cleaner that clears blocked drains caused by fats, oils, and industrial waste. For a complete drainage hygiene solution, use Stazed 100 to unblock, then follow with Bio Lino Avino to disinfect and eliminate bad odours — leaving drains flowing freely and hygienically sound. <b>Best for: Blocked drains   Fat and oil buildup   Industrial and kitchen waste removal   Powder formula   Combined with Bio Lino Avino for full-drain hygiene</b>

Product	Application & Best For
<b>Bio Lino Avino</b>	<p>Chlorine-based disinfectant cleaner applied post-unblocking to eliminate residual bacteria, pathogens, and bad odours from drain channels and surrounding surfaces. Ensures drains remain hygienically clean after Stazed 100 clears the blockage.</p> <p><b>Best for: Post-unblock disinfection   Drain odour control   Chlorine-based sanitation   Drain channels and surfaces</b></p>
