CROSS-INDUSTRY HYGIENE PRODUCTS

Industrial-Strength Performance Across Every Sector and Application

Versatile, industrial-strength cleaning and hygiene programmes that perform across construction sites, manufacturing workshops, site offices, drilling operations, and agricultural and livestock facilities. Where environments change, Stalite products deliver consistent, reliable results.

Heavy-Duty Floor & Surface Degreasers

Remove grease, oils, traffic marks, and deeply ingrained soiling from concrete floors, workshop surfaces, plant rooms, and drilling facilities.

| Product | Application & Best For |
|---------------------------|--|
| Supar 100 | Non-foam floor degreaser that removes greasy marks, heavy traffic stains, and ground-in dirt. Best for: Industrial floors Traffic mark removal Grease prevention Non-foam formula |
| Supar NF 100 | Versatile, high-foam industrial cleaner for factory machinery, processing equipment, and workshop floors. Best for: Factory machinery Workshop floors Industrial equipment |
| Supar Florex | High-foam degreaser for all hard surfaces — attacks and dissolves tough oil and grease stains quickly. Highly effective on drilling mud and rig-area soiling. Best for: Hard surface degreasing Factory floors Oil and grease stains Drilling facilities |
| Starkleen Stripper | High-strength acidic cleaner for heavily stained floors with deep metal marks and reddish discolouration. Best for: Heavily stained floors Metal oxide marks Deep stain removal Acidic formula |
| Bio Rinsola Extra | All-purpose cleaner for grease and grime from surfaces. Best for: Multi-surface cleaning Grease and grime Machine and hand-safe |

Scale & Stain Removal

Eliminate hard water scale, mineral deposits, and heavy surface staining from site infrastructure and equipment.

| Product | Application & Best For |
|---------------------------|--|
| Starkleen | Powerful scale and stain remover for hard water buildup, mineral deposits, and tough surface staining. Best for: Hard water scale Mineral deposits Surface stain removal Equipment and pipes |
| Starkleen Descaler | Powerful descaler for pipes, equipment surfaces, and areas where hard water causes visible buildup. Best for: Hard water scale Mineral deposits Surface stain removal |

Drilling Foam & Specialist Industrial Applications

Solutions for oil and gas drilling operations, agricultural processing, and livestock facilities where industrial hygiene standards apply.

| Product | Application & Best For |
|-----------------------|---|
| Supar Florex | High-foam degreaser effective for drilling platform cleaning, rig-floor degreasing, and industrial machinery in oil and gas environments. Best for: Drilling platform cleaning Rig-floor degreasing Oil and gas equipment Heavy industrial soiling |
| Supar NF 100 | Non-foam industrial cleaner for precision cleaning where foam control is critical — suitable for enclosed industrial and drilling environments. Best for: Foam-controlled industrial cleaning Enclosed equipment Drilling environments |
| Bio Lino Avino | A powerful chlorine-based cleaner and disinfectant whose active chlorine chemistry delivers fast, broad-spectrum microbial control on contact. Formulated for food, beverage, and clinical processing environments, it cuts through fats, proteins, oils, and surface contamination while its chlorine-active formula simultaneously disinfects — eliminating bacteria, viruses, and pathogens in a single step. The chlorine base also neutralises bad odours, making it the complete one-step hygiene solution for facilities that demand uncompromising standards. Best for: Food and beverage processing Clinical environments One-step chlorine-based degreasing and disinfection Processing equipment and surfaces Odour neutralisation |
| Zadipol | Low-foam powder cleaner and disinfectant for line cleaning and crate washing in food and horticultural operations. Effectively eliminates bad odours in a single step. Best for: Line and crate washing Horticultural farms Food processing One-step clean and disinfect Bad odour elimination |
| Stazed | High-foam powder detergent with built-in disinfection power — suitable for agricultural processing facilities, livestock housing, and animal welfare areas. Best for: Agricultural processing Livestock housing Animal welfare areas Combined cleaning and disinfection |
| Oxyplus FP50 | Entry-point footbath hygiene solution for controlled livestock and processing facility entrances — essential for biosecurity compliance. Best for: Agricultural biosecurity Livestock facility entry points Poultry farms Cross-contamination control |
| Ajexi Guard | Food-safe disinfectant for water treatment across agricultural operations and livestock water supplies. Best for: Agricultural water treatment Livestock water sanitation Food-safe applications |

Surface & General Disinfection

Maintain hygienic conditions in site offices, welfare facilities, communal areas, and agricultural buildings.

| Product | Application & Best For |
|------------------------|--|
| Bio Lino Quartz | Odourless disinfectant — general surface disinfection and hand-dip use. Best for: Sensitive environments Scent-free disinfection Hand dips Surface disinfection |
| Bio San | High-foam disinfectant — kills germs and eliminates bad odours in washrooms and welfare areas. Best for: Washrooms Welfare areas Public spaces Available in pine, lavender, or preferred fragrance |
| Bio Lino Dexol | Disinfectant and deodoriser — kills mould and fungal growth. Best for: Rooms and outdoor areas Mould and fungal control Disinfection with fresh pine scent |

Washroom, Kitchen & Laundry

Keep site welfare facilities, canteen kitchens, and workwear laundry compliant and efficient.

| Product | Application & Best For |
|-----------------------------|--|
| Bio-Flush | Non-drip limescale remover for toilet bowls and ceramic surfaces. Best for: Toilet bowls Ceramic surfaces Limescale removal |
| Bio Flush Terminator | Removes iron and rust stains from hard-to-reach ceramic areas. Best for: Iron and rust stains Ceramic surfaces Hard-to-reach areas |
| Starkleen | Scale and mineral deposit remover — ceramics and stainless steel fittings. Best for: Ceramic surfaces Stainless steel Hard water scale |
| Micro Wash | Low-foam detergent for automatic dishwashing machines. Best for: Site canteens Catering Dishwasher wash cycle Automatic dosing |
| Micro Rinse | Rinse aid — eliminates spots and streaks, accelerates drying. Best for: Use with Micro Wash Dishwasher rinse cycle Automatic dosing |
| Oven Master | Powerful thick-gel oven and kitchen degreaser that dissolves baked-on grease and carbon deposits from cookers, frying pans, and heavily soiled cooking surfaces. Best for: Cookers and ovens Frying pans Kitchen hoods Gel formula for superior surface adhesion |
| Oven Spray | Powerful liquid spray oven and kitchen degreaser for hard-to-reach and inaccessible areas. Best for: Hard-to-reach oven cavities Extractor hoods Enclosed cooking surfaces Liquid spray format |
| Britto Power Plus | Heavy-duty powder detergent with oxygen bleach built in. Best for: Heavy soiling Machine wash only |
| Britto Super | Flexible heavy-duty powder — usable with oxygen or chlorine bleach. Best for: Mixed fabric loads Machine wash only |

| Product | Application & Best For |
|---------------------|--|
| Top Wash 605 | Concentrated alkaline booster for heavily soiled, greasy, and stained workwear. Best for: Heavily soiled fabrics Greasy workwear Machine wash only |

Spotters

Dedicated spot treatments for stains that survive the main wash.

| Product | Application & Best For |
|--------------------------|--|
| Perkol Ink Go | Targeted stain remover that eliminates ink, lipstick, and other oil-based stains that survive the main wash. Best for: Ink, lipstick, oil-based stains Spot treatment |
| Perkol Soot Go | Removes soot, smoke residue, and heavy carbon staining from fabric. Best for: Soot, smoke, carbon stains Spot treatment |
| Perkol Rust Off | Targeted stain remover applied after washing to lift rust marks from both white and coloured fabrics. Best for: Rust stains Post-wash spot treatment White and coloured fabrics |
| Perkol Flush 1620 | Versatile heavy-duty stain remover that tackles a wide range of problem stains in one treatment — including yellowing, dullness, and stubborn red soil. Best for: Yellowing Dullness Red soil Wide-range staining Soaking and boosted wash |
| Perkol Strip | Powerful brightening agent available in powder and liquid form. Removes detergent buildup from over-washed linen and restores fabrics to a bright, clean appearance. Best for: Dull or over-washed linen Machine or hand wash Available as powder and liquid |

Hand and Body Hygiene

Protect site workers, welfare facility users, and agricultural staff with reliable, skin-safe hygiene products at every point of need.

| Product | Application & Best For |
|------------------------|--|
| Handex Cream | Gentle hand washing cream that kills germs while keeping skin soft and protected. Available in a variety of colours. Best for: Factory washrooms Daily hand hygiene Skin protection Available in a variety of colours |
| Handex Dry | Alcohol-based hand sanitiser that eliminates germs on contact. Dries almost instantly — no water or towel needed. Best for: On-the-go sanitisation No-rinse hygiene Alcohol-based |
| Handex Body Gel | Mild yet effective pH-balanced body wash formulated for daily use in institutional shower and welfare facilities. Gently cleanses and conditions skin while providing reliable germ-killing protection — ideal for high-turnover environments where worker welfare and hygiene compliance go hand in hand. Available in a range of fragrances to suit facility preferences. Best for: Worker welfare showers Factory and site facilities Daily personal hygiene Skin-safe formula Available in a range of fragrances |

Drainage

Prevent costly blockages and maintain hygienic, odour-free drainage in site welfare drains, kitchen drains, and agricultural drainage systems.

| Product | Application & Best For |
|-----------------------|---|
| Stazed 100 | <p>Fast-acting drain cleaner that clears blocked drains caused by fats, oils, and industrial waste. For a complete drainage hygiene solution, use Stazed 100 to unblock, then follow with Bio Lino Avino to disinfect and eliminate bad odours — leaving drains flowing freely and hygienically sound.</p> <p>Best for: Blocked drains Fat and oil buildup Industrial and kitchen waste removal Powder formula Combined with Bio Lino Avino for full-drain hygiene</p> |
| Bio Lino Avino | <p>Chlorine-based disinfectant cleaner applied post-unblocking to eliminate residual bacteria, pathogens, and bad odours from drain channels and surrounding surfaces. Ensures drains remain hygienically clean after Stazed 100 clears the blockage.</p> <p>Best for: Post-unblock disinfection Drain odour control Chlorine-based sanitation Drain channels and surfaces</p> |
